StealthWatch for Security Operations Learning Path

Overview
This learning path is intended for individuals responsible for tuning the StealthWatch® System and who maintain policies, understand traffic, and are responsible for quieting the system to obtain actionable alarms, and then respond to those alarms.

CPE Credits
Courses are eligible for Continuing Education Credits (CPEs) for SANs institute certifications.

Delivery Mode
Courses are offered as eLearning (ELT), Video Tutorials (VT), and Virtual Instructor Led Training (V/ILT).

Learning Path Courses

<table>
<thead>
<tr>
<th>Course Name</th>
<th>Delivery Mode</th>
<th>Description</th>
<th>Duration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Flow the Basics</td>
<td>ELT</td>
<td>This eLearning course provides an overview of the basics of Flow in Network and Security Operations.</td>
<td>1 hour</td>
</tr>
<tr>
<td>StealthWatch Overview &amp; Components</td>
<td>ELT</td>
<td>This eLearning course focuses on what the StealthWatch System is, what it does, and how it works. You will learn about the minimum requirements for deployment on a network and additional optional components that can be added to the system.</td>
<td>1 hour</td>
</tr>
<tr>
<td>StealthWatch SMC Client Interface Overview</td>
<td>ELT</td>
<td>This eLearning course introduces users to the StealthWatch Management Console (SMC) and how the SMC client organizes and presents information about the network. This course also focuses on how to navigate the SMC client interface.</td>
<td>30 minutes</td>
</tr>

</table>
### Course Name | Delivery Mode | Description | Duration
---|---|---|---
StealthWatch SMC Web App Interface Overview | ELT | This eLearning course provides an overview of the new StealthWatch Management Console (SMC) Web Application (App) interface introduced in StealthWatch System 6.5. | 30 minutes
StealthWatch for Security Operations (SSO) | VILT | The two-day virtual instructor led class is designed for customers who are new to StealthWatch and have responsibilities such as assessing security needs, creating and enforcing security policy, security monitoring or security engineering. | 2 business days

### About Training Credits and Training Vouchers
When training credits are purchased, the training credits are turned into a training voucher. The designated customer contact receives the training voucher, and distributes the voucher to others who require StealthWatch training.

- Training vouchers are redeemed through the Lancope Customer Training Center.
- Training vouchers expire one year from the purchase date.
Accessing the Customer Training Center

Customers access the Customer Training Center through the Lancope Customer Community. From the Customer Community, click **My Training** to access the Lancope Customer Training Center. From the Training Center, the available learning paths are listed.
Customer Training Center

The Lancope Customer Training Center provides access to both free eLearning courses and virtual instructor led training courses (VILT) that can be purchased using a training voucher.
